

**"We shall operate and maintain a stimulating and healthy work environment with focus on performance, creativity, knowledge and personal growth"**

Blue Logic shall:

- Always put safety first
- Avoid all injuries and work-related illness
- Have a high social commitment on all levels in all operations
- Identify and fulfil all applicable rules and regulations
- Operate and maintain a management system according to good practice contributing to a safe and healthy work environment.

Health and safety are both a line- and a personal responsibility. Everyone is responsible for own and others safety at all times.
